Work in Groups

Data set: internet speed across Europe

Audience: your friend, who is considering relocating to Europe to work remotely and needs good internet connection

Requirements:

- create minimum 2 graphs
- place the graphs in a Tableau story
- prepare a 2-3 minute presentation, considering the following:
 - the introduction should be catchy (ask yourself: “How can I capture my friend’s attention from the get go?”)
 - the conflict should include example, comparisons, or built the story from macro to micro (of vice-versa)
 - the resolution should reiterate the goal of the presentation and provide recommendations
